

## Creating a Scenario with Eduloc

### What is a Scenario?

A Scenario is a concept developed by [Eduloc](#) to organize, sort and filter, by topics, the experiences created by its users.

A Scenario is an educational experience that takes place in a specific area. It contains objects with their geographical coordinates with the purpose of working on a topic or concept using a mobile device with a GPS.

*Some examples of Scenarios on a mobile device*

### Creating a new Scenario

To create a new Scenario, access [Eduloc](http://www.eduloc.net/) (<http://www.eduloc.net/>), *Log in* by entering your user name and password (users must previously have signed up for the platform) and go to **New Scenario**.

You need to fill in all the fields in the form before you can create a Scenario:

- You may enter a picture/photo which identifies your Scenario
- A title to introduce it
- A brief description
- An URL address if you have a webpage, other than Eduloc's, to show the project related to this Scenario
- The key words to identify it, which will help the Eduloc Scenario library search, both on the web and in the application (Eduloc App)
- The town or the geographic area. There is space limit for a Scenario and its associated objects. For instance, it may include a schoolyard, a town, a region, a country... or even the whole world.
- Name of the school institution
- Language

This is your Scenario overview, which is visible on the Eduloc website and in the mobile application and it will make your Scenario findable in the Library search.

Click **Allow Scenario adoption** to share your work with other users and allow them to copy the data from your Scenario. They will also be able to adapt it to their own needs creating their own new Scenario.

You must also specify a Scenario type:

### **1. Basic**

Only owners can create objects; visible to all.

### **2. Collaborative**

Users who request to join and are authorized by the owner may participate by creating new objects, but they cannot modify objects created by others. Only the owner of the Scenario may change all objects. This Scenario is visible to all.

### **3. Personalized**

The owner of this Scenario invites other users to create objects in it. Invited users can create new objects, but cannot change those of the others. The owner of this Scenario decides which users can view it.

In order to help find Scenarios in the Scenario Library search, check the boxes of the subject areas covered by the Scenario.

 No se ha seleccionado

**Título**

**Descripción**

**URL**

**Palabras clave / Etiquetas**

**Población / Ámbito geográfico**

**Centro educativo**

**Idioma/as**

**Permitir adoptar el escenario**

**Tipo de escenario**

- Básico  
En este tipo de escenario sólo tú participas en la creación de objetos y será visible para todos.
- Colaborativo  
En este tipo de escenario todo el mundo puede participar creando nuevos objetos, pero no se pueden modificar los objetos de los demás. El propietario del escenario es el único que puede modificarlos. Este tipo de escenario lo puede ver todo el mundo.
- Personalizado  
El propietario de este tipo de escenario decide a qué usuarios invita a crear objetos en él. Los usuarios invitados pueden crear objetos nuevos, pero no pueden modificar los de los demás. El propietario de este escenario decide qué usuarios pueden verlo.

**Áreas del conocimiento**

- Ciencias Sociales
- Lenguas extranjeras
- Música
- Educación física
- Ocio y tiempo libre
- Lengua y literatura
- Matemáticas
- Ciencias Naturales
- Educación Artística
- Otros

**Edad del público objetivo**

- 8-10 años
- 12-14 años
- 17-25 años
- Más de 60 años
- 10-12 años
- 14-17 años
- 25-60 años
- Todos

**Edad del autor**

- 8-10 años
- 12-14 años
- 17-25 años
- Más de 60 años
- 10-12 años
- 14-17 años
- 25-60 años

Specify the age of the target audience for this Scenario, and the age of the author.

Once all the fields in the form are completed click on **Save** at the bottom of the page.

**Guardar**

The data of your Scenario will look like this on your mobile device:

You have created a new Scenario! Now you must create the contents.
